

# **GNMP Distance Education students**

Candidates who are Victorian residents and training via distance education with an interstate university, are required to provide one piece of evidence, confirming the following criteria:

- 1. Enrolment with the interstate university**
- 2. Candidate's current Victorian address.**

All distance education students must upload into the APS at the time of application, evidence of their university enrolment and a Victorian address by Friday 8 July 2022.

Ideally this evidence should be within a single letter/document which candidates may need to request from their university, if not already available through other communications.

**It is therefore the candidate's responsibility to provide this information. If a candidate is unable to do so, their application will be considered as an Interstate candidate.**
