The NFPMT and Vocational PGY2 Training Requirements - Update

On the 4th of September 2023, the Postgraduate Medical Council of Victoria (PMCV) released [The NFPMT and Vocational PGY2 Training Requirements](#) Communique which noted that PGY2 doctors who are part of a vocational training program from 2025 are exempt from meeting the requirements of the Australian Medical Council (AMC) National Framework for Prevocational Medical Training.

PMCV has since received further confirmation from the AMC that Postgraduate Medical Councils are still required to accredit PGY2 posts that may be interchangeable between vocational and non-vocational PGY2 doctors.

If you have any questions related to this matter, please don't hesitate to reach out to the PMCV Accreditation Team - accreditation@pmcv.com.au
