

PGY2 Rotation Mapping - Principles and Examples

PGY2 Rotation Line: Non-Compliant Example

	1		2		3		4	
Term/ Rotation	ED		ICU		Reliever/ Nights		ED	
Clinical Experience	A	B	C				A	B

 Does not provide exposure to minimum three discreet terms

In this example, a trainee would undertake two ED terms and one ICU term thus equating to only two discreet terms.

This rotation line would need to be restructured to achieve compliance. This can be done by:

A) Changing one of the ED terms to an alternative clinical unit

OR

B) Changing the Reliever/Nights terms to an Accredited term

PGY2 Rotation Line: Compliant Example

	1		2		3		4	
Term/ Rotation	ICU		Reliever		Dermatology		ED	
Clinical Experience	C				B	C	A	C

 Meets the broad generalist intent of the National Framework

 No more than 25% in any one subspecialty

 Exposure to all three Clinical Experiences

PGY2 Rotation Mapping - Principles and Examples

PGY2 Rotation Line: Non-Compliant Example

	1		2		3		4	
Term/ Rotation	O&G		O&G		Reliever/ Nights		ED	
Clinical Experience	C		C				A	B

 Does not provide exposure to minimum three discreet terms

In this example, a trainee would undertake two O&G terms and one ED term thus equating to only two discreet terms.

This rotation line would need to be restructured to achieve compliance. This can be done by:

A) Changing one of the O&G terms to an alternative clinical unit

OR

B) Changing the Reliever/Nights terms to an Accredited term

PGY2 Rotation Line: Compliant Example

	1		2		3		4	
Term/ Rotation	O&G		O&G		Haematology		Psychiatry - Consultation Liaison	
Clinical Experience	C		C		C	B	A	B

 Meets the broad generalist intent of the National Framework

 No more than 25% in any one subspecialty

 Exposure to all three Clinical Experiences

PGY2 Rotation Mapping - Principles and Examples

PGY2 Rotation Line: Non-Compliant Example

	1		2		3		4	
Term/ Rotation	General Medicine		General Medicine		Reliever		GP	
Clinical Experience	C	B	C	B			A	B

 Does not provide exposure to minimum three discreet terms

In this example, a trainee would undertake two General Medicine terms and one GP term thus equating to only two discreet terms.

This rotation line would need to be restructured to achieve compliance. This can be done by:

A) Changing one of the General Medicine terms to an alternative clinical unit

OR

B) Changing the Reliever term to an accredited term

OR

C) If the two General Medicine terms are being undertaken in different clinical focuses (eg. Neurology, Respiratory), it may be possible to achieve compliance through submitting a change in post application demonstrating that these are two discreet terms. This should be discussed with the PMCV Accreditation team in the first instance.

PGY2 Rotation Line: Compliant Example

	1		2		3		4	
Term/ Rotation	ENT		Geriatrics		ED		Reliever/Nights	
Clinical Experience	C		B		A	C		

 Meets the broad generalist intent of the National Framework

 No more than 25% in any one subspecialty

 Exposure to all three Clinical Experiences
