Application Requirements/ No of positions	Application must be provided to both PMCV Allocations & Placement Service website and directly to the Health Service. Check the HS website for deadlines as dates may vary between health services and PMCV.	2
Summary	This is an Advanced Training Position in Geriatric Medicine. Applicants are encouraged to contact the site coordinator at the health service. Please contact the Head of Department should you require further details. Albury Wodonga Health has formed a partnership with Austin-Northern - Bendigo where selected trainees who undertake a successful year of training at Albury Wodonga will have a guaranteed pre-match registrar role at ANB the following year should they wish to take up this opportunity.	
Position Description	Albury Wodonga Health (AWH) is a unique cross- border health care service spanning the border of North-East Victoria and New South Wales providing public health care to a population of approximately 280,000. It is the second largest regional health service in Victoria and operates under the jurisdiction of the Department of Health, Victoria. It has a total of 337 hospital beds across the two hospital campuses (Albury campus and Wodonga campus) and employs over 3,300 staff and has 174 registered volunteers. In a typical year AWH provides health care to approximately 40,000 patients. With an increasing rural ageing population there is high demand for geriatric medical services. Geriatric Medicine Advanced Training (AT) at AWH offers 12 months of RACP accredited core Geriatric Medicine training. There are 6 months inpatient rotations between Acute Care for Elderly (ACE) Unit and Geriatric Evaluation & Management (GEM) unit on Wodonga campus. The training also includes ambulatory services of Fall & Balance Clinic, CDAMS, General Geriatric Clinic, Subacute at Home (GEM stream), Transitional Care Program and Rural Outreach. The trainees will see a broad case mix of all aspects of Geriatric Medicine through their training period. AWH is affiliated with the Northern Training Alliance in the Victorian Geriatric Medicine Training Program. The weekly state wide training program is protected.

Registrar – Geriatric Medicine – 2026

Advanced Physician Training in Geriatric Medicine at Alfred Health

Alfred Health is the main provider of health services to people in the inner southeast suburbs of Melbourne and is also a leading provider of specialist services to people across Victoria. The health service operates three facilities: The Alfred, Caulfield and Sandringham Hospitals. The Health of the Older Persons department provides an integrated and comprehensive service at all three sites of Alfred Health. Trainees also can experience accredited training in the private setting at Cabrini Health.

At Alfred Health we prioritize the education and training of advanced trainees by providing a supportive and stimulating environment. The service has a broad and innovative focus which provides an excellent foundation for training and developing competence across the continuum of current geriatric medicine practice.

Each advanced trainee has an individually tailored program to gain outstanding clinical experience to suit their training needs. Rotations at Alfred Health include a broad range of innovative geriatric services including:

1. Geriatric evaluation and management and dementia and delirium specific wards
2. Community based substituted inpatient geriatric evaluation and management (Better at Home)
3. Psychiatry of Old Age
4. Inpatient consultation service at Alfred Hospital across the wards and the emergency department
5. Ortho-geriatrics
6. Trauma geriatrics
7. Services provided by Cabrini Health including private aged care practice and palliative care.
8. General and specialty outpatient clinics including Continence, Falls, Wound and Memory Clinics
9. Established Residential In-reach service (Mobile Assessment and Treatment Services)
10. Community ACAS visits

11. Rural rotation to Bass Coast Hospital

Our team of full time and fractional physicians in Geriatric Medicine provide extensive supervision to trainees, with a strong commitment to research. Alfred Health is affiliated with Monash University, and the South-eastern Training Alliance in the Victorian Geriatric Medicine Training Program. Trainees are allocated 5 hours of protected teaching/research time weekly.

In 2026, we are offering 14 accredited Geriatric Medicine Registrar training positions.

Alfred Health participates in the centralised match for Advanced Trainees in Geriatric Medicine in Victoria. All advanced training positions will be appointed through the centralized match.

For 2025, applicants will need to apply to both Alfred Health as well as to the Post Graduate Medical Council of Victoria Matching Service (PMCV).

Please visit the Victorian Geriatric Medicine Training Program website for further details.

For further enquiries please contact: Dr Seema Parikh s.parikh@cgmc.org.au

Position Description	Position Description on following page/s	

- *Up to 6 advanced trainee positions with up to 24 months of accredited core advanced training.*
- *Broad exposure to a range of core geriatric medicine rotations with opportunity to gain further experience in our comprehensive continence service, community geriatric medicine programs, Perioperative Care for Older People (POPS) clinic, Complex Wound Clinic and expanded Residential Inreach Program.*
- *Opportunity to be involved in teaching medical students through Deakin University Medical School and opportunity for leadership training via the subacute chief registrar role.*

About Barwon Health

Barwon Health is one of the largest and most comprehensive regional health services in Australia, providing care at all stages of life and circumstance. Services available through Barwon Health cover the full spectrum from primary care, community services, aged care, subacute care, mental health, emergency and acute care. We serve more than 500,000 people through the efforts of more than 9000 staff and volunteers across more than 20 sites. Barwon Health is committed to developing a vibrant culture of education, training and research that advances health and wellbeing for all.

About the facility

Our major sites include University Hospital Geelong in Geelong's CBD, the McKellar Centre precinct in North Geelong, Barwon Health North in Norlane, and residential aged care facilities spanning the region. Comprehensive mental health, community health and dental services are delivered through various programs across the Barwon LHSN, including Torquay and Colac.

The Department of Geriatric Medicine has expanded to include 15 geriatricians, and up to 8 registrar positions within the department (including 2 BPT registrars) and HMOs. Our services span extensively from **University Hospital Geelong (UHG); McKellar Centre** subacute programs; **Residential Aged Care programs**

including the award-winning Specialist Dementia Care Program (SDCP) at Blakiston Lodge, McKellar Centre and our Residential Transition Care Program at Alan David Lodge; and **Subacute Specialist Clinics** including CDAMS, Continence Service, Falls and Balance clinic, Community Geriatrics Clinic, Perioperative Care for Older People (POPS) Clinic, Complex Wound clinic and GEM CRC clinics.

We are a friendly and collegial bunch of geriatricians, with a strong focus on person-centred care to ensure that personal, connected, safe, and effective care is delivered. We provide a supportive working environment for our junior and senior medical staff.

About the role

Barwon Health provides opportunities for a broad range of experience for geriatric medicine advanced trainees in a well-supported environment. Rotations include community (ACAS, Residential In-Reach, and domiciliary TCP program), inpatient GEM unit, Subacute@home program, Orthogeriatrics Consults Service, UHG Geriatric Consults Service, residential TCP program and Subacute Specialist Clinics (including CDAMS, Continence Service, Falls and Balance Clinic, POPS Clinic, Complex Wound clinic and Community Geriatrician Clinics). One of the key strengths of our training program is the opportunity to experience different aspects of community geriatric medicine service, an expanded Residential Inreach program, and significant exposure to a comprehensive Continence Service which previous trainees found it a very valuable addition to their training experiences.

Barwon Health also has a strong affiliation with the Deakin University Medical School. All trainees will have the opportunity to be involved in the teaching of final year medical students in their aged care rotation. In addition, we also have linked to several research groups within Barwon Health and Deakin University Faculty of Health. We provide access to research and statistical support within Barwon Health and through Deakin University. There is opportunity for trainees to conduct a research study in a well-supported environment to satisfy the college training requirement.

Barwon Health currently has 6 advanced trainee positions in Geriatric Medicine. We are accredited to provide 24 months of core training. We offer a variety of different rotations in Geriatric Medicine as described above. For a senior advanced trainee, opportunity is also available for interested trainees to apply for the Subacute Chief Registrar role which provides an opportunity for leadership training.

Oncall – registrars are expected to participate in the subacute after-hours oncall registrar roster which includes approximately 1 in 11 weekend nights and will be supported by an oncall consultant. There is an HMO onsite at McKellar Centre until 2330hrs (Mondays – Thursdays) or 2230hrs (Fridays – Sundays).

Barwon Health is participating in the PMCV Centralised Match for 2027 Geriatric Medicine Advanced Trainees in Victoria. Applicants need to apply to Barwon Health, and to register with the PMCV centralised matching system. In addition, Barwon Health also has established a regional training partnership (RTP) position with Western Health for 2027 recruitment. Interested applicant for the RTP training position will need to apply directly to us and Western Health outside of the PMCV match.

Full position description will be available on the application website.

About the culture

You will have the opportunity to be part of a highly skilled, professional and dedicated team who take pride in providing high quality services. We promote positive, respectful relationships and strong partnerships within the workplace. Grow and develop your capabilities with Barwon Health's commitment to professional development.

Barwon Health staff benefits

- Excellent working conditions with a high sense of job satisfaction
- A vibrant staff wellbeing program and access to our 24/7 Employee Assistance Program
- Wide-range of professional development opportunities to enhance your career

- Attractive salary packaging benefits. Living expenses capped at \$9,010 and meals and entertainment capped at \$2,650

About Geelong - Derived from the local Wathaurong Aboriginal name for the region Djilang, Geelong is thought to mean 'Tongue of Land'.

- Geelong offers a range of lifestyle choices including inner city, coastal, suburban and rural homes
- Geelong is home to world class schools and education providers
- [Doorstep to the Great Ocean Road](#), [Bellarine Peninsula](#) and the [Surf Coast](#)
- Appreciate our vast and abundant parklands, sports and entertainment attractions, and thriving dining and shopping complexes

Bendigo Health

With more than 4,500 staff and volunteers and covering an area a quarter of the size of Victoria, Bendigo Health, is an expanding regional health service offering the advantages of city life combined with the beauty and freedom that comes from living in a regional area.

Bendigo Health is a 700 bed service that treats more than 45,000 inpatients, triages more than 65,000 emergency attendees and welcomes more than 1,600 new born babies in a year. In addition more than 15,000 operations are performed in our operating theatres and more than 100,000 occasions of services are provided in our clinics to outpatients.

The organisation provides services in emergency, maternity, women's health, medical imaging, pathology, rehabilitation, community services, residential aged care, psychiatric care, community dental, hospice/palliative care, cardiology, cancer services and renal dialysis to the people of the Loddon Mallee region.

With our main campus based in Bendigo, our services extend throughout the Loddon Mallee with sites in areas such as Mildura, Echuca, Swan Hill, Kyneton and Castlemaine.

Demand on services is increasing rapidly with Bendigo being one of Victoria's fastest growing regional cities.

OurVision

Excellent Care. Every Person. Every Time.

OurValues

CARING – We care for our community

PASSIONATE – We are passionate about doing our best

TRUSTWORTHY - We are open, honest and respectful

All staff at Bendigo Health should have, or aspire to the personal qualities, knowledge and skills as described in the Bendigo Health Staff Capabilities Statement. Refer to link at top of page.

TheIntegratedCareServicesDivision

The Integrated Care Services Division offers a diverse range of programs and services which provide high quality person centred care to patients, clients, residents and consumers in Bendigo and across the Loddon Mallee Region. Services are provided in inpatient, outpatient, community, home and residential care settings.

Our services include; Aboriginal Services and Diversity, Allied Health, Community Programs, Health Promotion, Outpatient Rehabilitation Service, Community Dental Services, Pastoral Care and Chaplaincy Services, Rehabilitation & Geriatric Medicine, Palliative Care, Residential Care Services, Transition Care and Volunteer Services.

In addition the Executive Director Integrated Care Services has professional responsibilities as the Chief Allied Health Officer As such the CAHO is focused on leading and supporting the health professional workforce to feel valued and empowered to provide exceptional, quality care.

TheGeriatricMedicineTeam

The medical team within integrated care services include geriatricians, rehabilitation physicians, palliative care physicians, registrars and junior medical staff.

The Team look after inpatients who require ongoing assessment, evaluation and rehabilitation. This is usually after an acute illness or traumatic event, but sometimes after failing to manage in the community. The team may assist in one or more of the following outpatient clinics – memory clinic, falls and balance, comprehensive geriatric assessment, continence and telehealth reviews. The team may be rostered to assess and provide care to older adult patients in the acute wards of Bendigo Health, Residential In Reach, Transition Care Program or ACAS clients in the community.

The Positions

This position description covers the six RACP-accredited Geriatric Medicine registrar positions to be employed by Bendigo Health for the year 2026 – 2027.

Regional Training Programs offered:

4-month rotation – one AT position at Austin-Northern Health will rotate to Bendigo Health (B.H.) every 4 months (i.e., three rotations per year)

Direct appointment OR via the PMCV Match- for a one or two year AT Registrar appointment

NEW Option: 3-year program - following successful completion of 2 years training at Bendigo Health, the AT will be offered a position at Austin-Northern Health for their third year of training

Each of the Bendigo Health appointed registrars will rotate through three of the following terms in the year:
GEM Unit Geriatric Medicine Registrar (two units available);

Orthogeriatric Service Geriatric Medicine Registrar who will also provide consultation reviews to older adults in Surgical Services;

Geriatric Medicine on Acute Registrar who will combine inpatient Unit care with consultations to the Older Persons Psychiatry Inpatient Unit and General Medical Units in concert with the ED registrar;

Geriatric Medicine on E.D. providing an assessment and consultative service in ED and linking with community and the Acute Medical Services; and

Community Geriatric Medicine Registrar who provides a service to a third, smaller GEM hospital inpatient unit, as well as patients in the community, Transition Care and GEM@Home Programs.

Term allocation will be negotiated with each registrar dependent on their individual training needs, as well as organisational requirements.

Each unit is supported by either an intern or an HMO and it is the expectation that the registrar will supervise, train and support their junior medical staff.

It is expected that all registrars will work in at least one Geriatric Medicine clinic each week dependent on their training needs across the year. The selection of clinic assignment will be negotiated with each registrar and may include any of the following clinics: CDAMS, General Geriatric Medicine, Geri-Connect Telehealth service, Falls and Balance or Continence or the Movement Disorder Clinic (to be formalised in 2025).

The roles are all 42-45 hours per week, including infrequent weekend shifts, but **no** overnight cover.

It is an expectation that trainees attend the fortnightly Victorian Geriatric Medicine Training Program Thursday afternoon sessions, and other Northern Alliance of in-house training activities, including an organised registrar training program.

A Unit Handbook is available for each position.

All staff at Bendigo Health should have, or aspire to the personal qualities, knowledge and skills as described in

the Bendigo Health Staff Capabilities Statement. Refer to the link at top of page.

Responsibilities and Accountabilities

Key Responsibilities

- Clinical management of patients and the supervision of, and adequate documentation regarding their medical care.
- Initiate, implement and monitor management of patients under supervision, incorporating the appropriate testing and investigation.
- Thoroughly and promptly correlate and record in the medical record the information obtained from its various sources, in an appropriate and ongoing manner, from the initial assessment, treatment, clinical progress and investigations, and to succinctly record this in discharge summary at the time of discharge.
- Foster rapport and good communications using appropriate language, written or verbal, with the patient and other parties as required; including contact with the referring Medical Practitioner.
- Use technology appropriately, with cost benefit and potential patient benefit and complications considered.
- Appropriately liaise with all staff involved in the care of the patient, including communication and referrals necessary for ongoing care post-discharge.
- Perform certain procedures, under supervision as appropriate.
- Regularly review patient objectives, interpretative, physical and mental status, including the development and communication of a discharge plan from the time of admission.
- Counsel and support patients and their families.
- Fulfil duties as outlined in the Duty Roster of the post undertaken.
- As a representative of the Hospital and the Medical Profession, present an appearance and demeanour of professionalism at all times.
- Continually update and extend personal medical knowledge and skills, regularly attend Clinical Meetings and remain familiar with current medical literature.
- Participate in Divisional/Department/Unit Quality Improvement activities.
- Participate in teaching and educational activities as required.
- Perform other duties as agreed to and as required on occasions by Medical Administration in relation to cover of other registrars due to illness, bereavement or patient transfer.

Employees are required to carry out lawful directions outlined above or delegated to them. The work to be performed is set out in this position description and, where relevant, any professional standards and codes of conduct and ethics issued by the relevant professional association.

Generic Responsibilities

Code of Conduct - The Victorian Government's Code of Conduct is binding on all Bendigo Health staff. Contravention of a provision in the code may constitute misconduct and/ or regarded as a breach of the employee's employment agreement and will be dealt with under the organisations Counselling and Disciplinary Action Policy.

Compliance with policies and procedures - All Bendigo Health's policies and procedures are set out in its clinical and managerial policy manuals located on the intranet under PROMPT and in hard copy. All staff must ensure they comply with policies, procedures and standard ways of work practices when carrying out their work. Any breach in compliance may result in disciplinary action.

Occupational Health and Safety - Every staff member has the responsibility to take reasonable care of their own health and safety and the safety of others, to cooperate with Bendigo Health's OH&S policies and to participate in appropriate safety education and evaluation activities. All staff are expected to participate in reporting any health, safety and wellbeing issues. Any breach in compliance may result in disciplinary action.

Infection Control - Every staff member has the responsibility to minimise incidents of infection/ cross infection of residents, staff, visitors and the general public. All staff must adhere to the policies and procedures as set out in Bendigo Health's infection control manuals. Any breach in compliance may result in disciplinary action.

Confidentiality - All information concerning Bendigo Health, its patients, clients, residents and staff should remain strictly confidential. Any unauthorised disclosure of such information may result in disciplinary action.

Quality Improvement - Bendigo Health is dedicated to improving the quality and safety of health services by providing care within the following domains of quality: Consumer Participation, Clinical Effectiveness, Effective Workforce and Risk Management. As a result, we apply the concept of the quality cycle for all our quality activities, initiatives and projects thereby ensuring the best possible care and treatment results are achieved. The underlying principle of the cycle is that an activity is not complete until evaluation shows that it has been effective and reached the desired outcome. As a Bendigo Health employee, you have a responsibility to participate in and commit to ongoing quality improvement activities using the framework of the NSQHSS (National Safety and Quality Health Service Standards).

Diversity – Each person has a right to high-quality health care and opportunities regardless of diversity factors, which might include aspects such as cultural, ethnic, linguistic, religious background, gender, sexual orientation, age and socio-economic status. Every staff member has a responsibility to recognise and respect diversity. Inclusiveness improves our service to our community and promotes engagement amongst staff.

Employees are required to carry out lawful directions outlined above or delegated to them. The work to be performed is set out in this position description and, where relevant, any professional standards and codes of conduct and ethics issued by the relevant professional association.

Key Selection Criteria

Essential

- MBBS or equivalent degree with current General Registration with AHPRA
- At least 3 years post-graduate experience
- Current membership of the College training program
- Demonstrated appropriate level experience and skills in the medical assessment and clinical management of patients.
- Thorough understanding of the relevant legislation pertaining to Medical Officers.

Desirable

High level interpersonal and communication skills and the ability to communicate confidently and appropriately with patients and their families and other health professionals

Evidence of on-going professional development to continually update personal medical knowledge and skills

Ability to effectively use organisational skills (incorporating documentation, time management skills, critical thinking and priority setting)

Ability to operate in an environment of change.

Ability to work as an effective team member in a multi-disciplinary environment as well as independently (under appropriate supervision)

Mandatory Requirements

National Police Record Check A current and satisfactory National Police Record Check must be completed by all new staff prior to commencement at Bendigo Health.

Immunisation As a health provider dedicated to providing quality patient care, we all need to be aware of the critical importance of infection control. Each staff member has a responsibility to comply with Bendigo Health's Staff Immunisation Policy and various infection control policy and procedures.

All staff are required to provide evidence of vaccinations prior to commencement at Bendigo Health **Registration with Professional Regulatory Body or relevant Professional Association** For example, AHPRA, AHRI, RACS etc. The work to be performed is set out in this position description and, where relevant, any professional standards and codes of conduct and ethics issued by the relevant professional association.

All Bendigo Health sites, workplaces and vehicles are smoke free.

This position description is intended to describe the general nature and level of work that is to be performed by the person appointed to the role. It is not intended to be an exhaustive list of all responsibilities, duties and skills required. Any elements of this document may be changed at Bendigo Health's discretion and activities may be added, removed or amended at any time.

Position Description	Position Description on following page/s	

Position Description

Eastern Health is one of Melbourne's largest metropolitan public health services. We provide a comprehensive range of high quality acute, sub-acute, palliative care, mental health, drug and alcohol, residential care, community health and statewide services to people and communities that are diverse in culture, age and socio-economic status, population and healthcare needs

In addition trainees will be exposed to ambulatory roles including

1. Multiple speciality clinics (CDAMs, Falls and Balance, Continence and urodynamics, Movement Disorders, Pain, Complex Care, Onco-Geriatrics, Metabolic bone, High risk surgical),
2. Hospital consultative services in general geriatric care,
3. Home assessments with ACAS and HARP and TCP services.

The Aged Care department at Easternhealth provides a supportive and collegiate atmosphere to help individual trainees reach their learning goals. The Geriatricians within the department have skills and higher degrees in research, teaching and education that can help facilitate the professional development of doctors in training. Mentorship, career counselling and support are available and prioritised, recognising their importance for trainees and their individual circumstances. Opportunities exist for trainee involvement in committees and other areas of professional development.

Previous examples include work with ECLC (Eastern Community Legal Centre - Elder abuse response), Falls committees and the senior registrar role. Trainees are involved in project support meetings, journal club, morbidity and mortality and collegiate education dinners throughout the year.

Eastern Health participates in the centralised match for Advanced Trainees in Geriatric Medicine in Victoria. All advanced training positions will be appointed through the centralised match. Applicants will need to apply to both Easternhealth as well as to the Post Graduate Medical Council of Victoria Matching Service (PMCV).

Advanced Physician Training in Geriatric Medicine at Grampians Health

Organisational Information

The former Ballarat Health Services, Wimmera Health Care Group, Stawell Regional Health and Edenhope and District Memorial Hospital have united to form Grampians Health. As Grampians Health, we provide high quality and accessible health care services to a region with more than 250,000 people over 48,000 sq km or >20% of Victoria. We value Collaboration, Compassion, Accountability, Respect, and Innovation.

Geriatric Medicine at Grampians Health

The geriatric medicine unit, together with the other internal medicine services, are expanding across the Grampians Health region. Our geriatric medicine advanced trainees are supported by local basic physician and general stream trainees and physician trainees rotating from metropolitan hospitals. Our unit is based at the Queen Elizabeth Centre in Ballarat and is co-located with Rehabilitation Medicine and Palliative Care.

Geriatric medicine provides specialist support to the Emergency Department and the acute hospital wards (medical and surgical). The unit is actively involved in acute care through the Hospital Elder Life Program, GEM on Acute, and the upcoming Acute Care of the Elderly and Orthogeriatric programs. The team provides leadership to multidisciplinary teams and complex discharge planning in our various acute and subacute sites.

The Geriatric Medicine team provides comprehensive outpatient and community services: CDAMS, Falls and Balance, Continence, Complex Geriatric Clinics, Rural and Remote Geriatrics, GH at Home (Better at Home), and Residential In-Reach.

We have 34 GEM beds across the service. Grampians Health is the largest provider of public sector residential aged care in Australia with 612 residential aged care beds across the region.

Our growing team of ten (10) full time and fractional specialist physicians in geriatric medicine provide extensive supervision to both trainees and students and are committed to research. Grampians Health is affiliated with both Melbourne University and Deakin University with several consultant staff having teaching appointments.

The advanced trainee in Geriatric Medicine role

We pride ourselves on being able to offer trainees a tailored program to build their clinical, professional and leadership skills in a very supportive and egalitarian working environment. Trainees will have the opportunity to be actively involved in service development.

Advanced trainees have protected training time to attend and participate in the Victorian Geriatric Medicine Training Program and the Western Training Alliance. They have minimal on-call and after hour obligations and are supported in developing their research abilities.

For 2026, we have one full-time position available accredited for 12 months of core training.

Please visit the Victorian Geriatric Medicine Training Program website for further details (<https://www.vgmt.org/centralised-match.html>).

About Monash Health

Monash Health is Victoria's largest and most comprehensive health service, delivering safe, high-quality healthcare to one-quarter of Melbourne's population across a diverse community at every stage of life. With more than 24,000 employees, we provide care to south-eastern metropolitan Melbourne and rural Victoria from over 50 locations, via telehealth, within local communities and in people's homes. As an equal opportunity employer, we are committed to a fair, non-discriminatory workplace that maximises the talent, potential and contribution of all.

Our iCare values:

- **Integrity:** We act fairly, honestly and openly;
- **Compassion:** We act with dignity and empathy;
- **Accountability:** We take ownership and responsibility for performance;
- **Respect:** We value difference and individual worth;
- **Excellence:** We aim for and recognise innovation, quality and professionalism.

Our Organisational Priorities:

Our organisational priorities reflect our commitment to immediate and impactful improvements through Monash Health to provide the best possible healthcare experience and outcomes for our people, patients, and communities.

Our Service Excellence Standards:

A set of positive employee behaviours to model, helping improve our patients' experiences in every interaction.

Geriatric Medicine Advanced Trainee Position Description

Position title	Geriatric Medicine Advanced Trainee Fellow in Geriatric Medicine
Employment type	Fixed term, full-time Flexible training positions will be considered
Classification	As per award
Reports to	Service director
Department	Aged, Rehabilitation and Community

Monash Health endeavours to provide a high-quality training program in Geriatric Medicine. It offers trainees exposure to a diverse range of clinical services including:

- Geriatric Evaluation and Management (GEM) units
- General rehabilitation
- Stroke and Neurology rehabilitation
- Movement disorders unit
- Orthogeriatrics service
- Medical assessment and perioperative service (MAPS)
- Acute Care of the Elderly (ACE) unit
- Aged and Rehabilitation Access (liaison) service
- Community-based care including Monash at Home, Residential Inreach, Transition Care Program (TCP)
- Specialty clinics include Cognitive, Dementia and Memory Service (CDAMS), Movement Disorders, Continence, Falls and Balance
- Acute Aged Persons Mental Health unit.

These services are spread across multiple metropolitan sites including the subacute site Kingston Centre, Monash Medical Centre (MMC), Jessie McPherson Private Hospital, Dandenong Hospital, Casey Hospital, Moorabbin Hospital, Victorian Heart Hospital, Regis Aged Care - Dandenong North and Cranbourne, and at one regional site at Latrobe Regional Health.

There is an extensive education program. Trainees attend fortnightly state-wide VGMTTP sessions, as well as alliance and local training activities. There is dedicated support for research projects with affiliations to Monash University, Monash Partners, and the Monash Ageing Research Centre (MONARC).

Monash Health also hosts the Fellow in Geriatric Medicine (FIGM) for the South-Eastern Training Alliance (SETA). Educational and leadership responsibilities of this role include SETA representation in the Victorian Geriatric Medicine Training Program, organisation of state-wide, alliance and local education sessions, membership of Monash Health Aged and Rehabilitation Quality and Safety Committee, preparation of journal club, morbidity and mortality meetings, and co-supervision of junior medical staff alongside chief registrars. Clinical responsibilities include TCP and specialist clinics.

In 2027, there will be 20 full-time equivalent Advanced Training positions including the FIGM role. We welcome applicants seeking part-time training, with a partner to job-share desirable. Trainees will usually be allocated three rotations of 4 months over one year with the exception of MAPS and LRH, with rotations tailored to offer a broad and individualised training experience across 2 years.

There has been an expansion of the existing Regional Training Partnership (RTP) between Monash Health and Latrobe Regional Health. It is intended that the appointed advanced trainee in 2027 will complete their first 12 months of training at Latrobe Regional Health (pending site accreditation) before continuing at Monash Health for the following 2 years. This position will be appointed outside the Centralised Match.

Applications

Monash Health participates in the Centralised Match for Advanced Trainees in Geriatric Medicine in Victoria. All full-time advanced training appointments will be made through the centralised match.

Applicants will need to apply to **both Monash Health and the Postgraduate Medical Council of Victoria (PMCV)**. Please visit: [VGMTP Recruitment 2027](#).

For further enquiries, contact Dr Helena Ng, Director of Training (Monash Health), email: Helena.Ng@monashhealth.org.

RTP position enquiries: Dr Gnanasegar (Nathan) Swaminathan, Site Training Coordinator (Latrobe Regional Health), email: gnanasegar.swaminathan@lrh.com.au.

POSITION DESCRIPTION

Position Title:	Geriatric Medicine Registrar – Aged Psych and Palliative Care
Business Unit/Division:	Office of CMO
Award Agreement:	Victorian Public Health Sector - Doctors in Training (DIT) Enterprise Agreement 2022-2026
Classification:	Per experience
Employment Type:	12 months full time, fixed term
Reports to:	Divisional Director Sub-Acute services - Medical, Chief Medical Officer through the Junior Medical Workforce Unit
Date Prepared/Updated:	May 2025

General Role Statement:

This role involves a 6-month rotation to the Palliative Care unit at Northern Health and a 6 month rotation on the APMHU based at Broadmeadows.

2 ATs will be appointed and will rotate between the 2 roles for a total of 12 months.

These positions are based exclusively at Northern Health and are not part of the rotation pool with Austin/Bendigo.

Separate Position Descriptions for each rotation are attached.

ORGANISATIONAL OVERVIEW

Introduction

Northern Health is a vibrant, fast-paced workplace located in the rapidly growing northern suburbs. This is driving us to think innovatively about the needs of the population and what the health system of the future might need to look like to meet those needs. We take care of our community by providing a wide range of health services at multiple locations including:

- Northern Hospital Epping
- Broadmeadows Hospital
- Craigieburn Centre
- Bundoora Centre
- Moreland Community Team
- Broadmeadows Community Care Unit
- Broadmeadows Prevention and Recovery Care
- North Area Mental Health Service Community Clinic
- Northern Prevention and Recovery Care
- Northern Community Care Unit and,
- Noogal Clinic

We also collaborate with our partners to help expand the range of health care services offered to our culturally rich and diverse community.

As an organisation, we are shifting our focus from illness to putting a spotlight on supporting our community

in 'staying well'. In order to achieve this, we are developing strong relationships with other health service providers and the community across the region, to help us think differently about the future.

ROLE STATEMENT

The role is a registrar position on the Broadmeadows Older Adults Inpatient Unit, a 19-bed unit which has historically been a part of NWMH Aged Persons' Mental Health Program. In July 2023 governance for the unit transferred to Northern Health, however the 19 beds are shared between NH and RMH under a service-level agreement. Staff are employed by Northern Health and are expected to liaise with colleagues at RMH to provide high level care for consumers. There are two psychiatry consultants working on the unit along with a senior psychiatry registrar, geriatric medicine registrar and two interns. The geriatric medicine registrar is expected to have advanced skills in geriatric medicine and would be looking to further their skill set with additional training in Old Age Psychiatry.

This position is responsible for:

- Provision of high quality standards of patient care. This includes the assessment, planning, implementation and evaluation for care in collaboration with a multidisciplinary team.
- Accepting accountability for own actions and seeking guidance if situations exceed the scope of practice of a Hospital Medical Officer/Registrar.
- To attend training/educational activities including Grand Rounds, Journal Club, Colloquia and other local training opportunities.
- To attend the formal education program in Geriatric Medicine.
- To attend weekly clinical supervision sessions.
- To participate in teaching of medical students, HMOs & more junior Registrars.
- To provide clinical support for other HMOs/Registrars where this may be required due to workload or other unforeseen circumstances.
- The Registrar will work closely with the multidisciplinary team to provide high quality palliative care to inpatients referred to the Palliative Care Consultancy Service and on the Palliative Care Unit.

This position is responsible for:

- Working with the Palliative Care multidisciplinary team to provide holistic medical care for patients referred to the Palliative Care Consultancy Team and the Palliative Care Unit inpatients, and support for their families, under supervision of the consultants.
-
- This position is suitable for the completion of the Clinical Foundation of Palliative Medicine (if the applicant is eligible):
- <https://www.racp.edu.au/trainees/advanced-training/advanced-training-programs/clinical-foundation-palliative-medicine>

SELECTION CRITERIA

Qualifications, Registrations and Qualities

Essential

- MBBS or equivalent
- Registered with AHPRA
- Applicants must have passed the FRACP Part 1 exam
- Must hold an appropriate employment visa if not an Australian Citizen or Resident

- Current National Police and Working with Children History Check.
- The Staff Immunisation Questionnaire must be completed by all new employees as part of the mandatory on-boarding process. New employees are not permitted to undertake any activity that requires patient contact prior to clearance by the Staff Immunisation Nurses; this also includes evidence of having the Flu vaccination on a yearly basis and being fully vaccinated against Covid-19. New employees with contra-indications to vaccinations or who decline vaccination are required to attend a face to face consultation with the Immunisation Nurses for appropriate documentation of their contraindications or declination. This must be completed PRIOR to commencing any work with Northern Health.

Experience

- At least 1 year of Core Geriatric Medicine Training under the Geriatric Medicine ATC of the RACP.

Knowledge, Skills and Behaviours

- Demonstrate a commitment to the Northern Health values – safe, kind, together
- Specific knowledge, skills and behaviour as per the positions descriptions attached

Position Description	Position Description on following page/s	

GERIATRIC MEDICINE ADVANCED TRAINING AT PENINSULA HEALTH

8 Full Time positions

Peninsula Health is a leading tertiary teaching and research health service affiliated with Monash University. The Department of Geriatric Medicine at Peninsula Health is a growing and vibrant unit with a commitment to becoming one of the leading such units in Victoria. The faculty consists of fourteen geriatricians (sessional/full time) who are substantially invested in ensuring trainees achieve their goals, with representation on the RACP Advanced Training Committee in Geriatric Medicine and the ANZSGM Vic Committee. Trainees are also supported in their projects and quality/systems initiatives by a state-of-the-art Research and Academic Unit.

Peninsula Health is part of the South Eastern Training Alliance. We are accredited for 24 months of core training in Geriatric Medicine with the Royal Australasian College of Physicians (RACP). Trainees have the exciting opportunity to work across a wide range of services offered by the department

- Acute Care of the Elderly (ACE) Unit (Frankston Hospital)
- Orthogeriatric service (Frankston Hospital)
- Subacute Assessment Service/Geriatric Consult Service (Frankston Hospital)
- GEM Units (The Mornington Centre) – 3 GEM Units specialising in dementia/delirium care, stroke rehabilitation and general/orthopaedics rehabilitation.
- Better at Home Service (Golf Links Rd Rehabilitation) – this service incorporates a ‘Journey to home’ component which includes assessment and care planning of older patients in the acute hospital and a ‘Care at home’ component which incorporates

providing medical input into the care of the older patient within the community, in their home.

- Palliative Care Unit – A rotation to the Palliative Care Unit for 3 or 6 months can be offered to interested candidates.
-

Additionally, a full complement of specialty and general clinics are offered to trainees including Cognitive Dementia and Memory Service (CDAMS) Clinic, Falls & Fracture Clinic, Urodynamics Clinic, Chronic Wound Clinic and Geriatric Medicine Clinic.

Peninsula Health is committed to encouraging and fostering an environment of continued learning and skills development. Trainees are ensured protected training time to attend the Victorian Geriatric Medicine Training Program. They are encouraged and supported to attend local/National conferences and workshops. In addition, they are required to participate in fortnightly Education sessions, weekly grand rounds, monthly M&M meetings and the South Eastern Training Alliance sessions, one of which will be conducted annually on-site at Peninsula Health. The unit has a strong faculty with a keen interest in research and there is opportunity to be part of substantial clinically relevant research projects.

Enquiries about the positions are welcome. All positions will be appointed through the VGMTP centralised match. Please visit <https://vgmtp.org/centralised-match.html> for details (Applicants are required to apply separately to Peninsula Health in addition).

Position Description	Position Description on following page/s	

Advanced Trainee, Geriatric Medicine

Position Summary:

St Vincent's Hospital Melbourne (SVHM) is a leading teaching, research and tertiary health service, which employs more than 7,000 staff across 18 sites throughout Melbourne.

Part of Australia's largest not-for-profit Catholic health and aged care network, St Vincent's Health Australia, SVHM provides a diverse range of adult clinical services including acute medical and surgical services, sub-acute care, medical diagnostics, rehabilitation, allied health, mental health, palliative care, correctional health and community residential care.

SVHM's mission is to provide high quality and efficient health services to the people of Victoria in accordance with the philosophy of St Vincent's Health Australia. This mission is based on the values of compassion, justice, integrity and excellence.

St Vincent's is accredited with the Royal Australasian College of Physicians (RACP) for 24 months of core training in Geriatric Medicine and is the lead hospital for the Victorian Geriatric Medicine Training Program (VGMTP). We are part of the Northern Training Alliance.

5 full time Advanced Trainees will be appointed to the Department of Geriatric Medicine.

Trainees generally have three rotations of 4 months duration based out of St Vincent's Hospital campus in Fitzroy, St George's Hospital campus in Kew and the surrounding

community.

As a guide for how things are likely to look in 2026, current rotations are:

1. GEM (Kew), CDAMS Clinic, Psychogeriatric experience
2. GEM (Kew), Continence Clinic, GEM@Home
3. Acute Care of the Elderly/Orthogeriatrics (Fitzroy), Onco-Geriatrics Clinic, Residential-Inreach (Fitzroy)
4. GEM (Fitzroy), Pain Clinic for Older People, Structural Heart Disease Clinic
5. Residential In-Reach (Fitzroy), GEM@Home (Kew), Falls and Balance Clinic

We also have experiences with inpatient consultations, community ACAS, Health Independent Program, Geriatric Medicine Clinic and Geriatrician in the Emergency Department. We are often able to tailor rotations to your needs, particularly in your final year of training.

Under the direction of the Geriatricians/Clinical Director of Geriatric Medicine, core duties are focused on the provision of day-to-day clinical management of patients and undertaking appropriate administrative duties.

These responsibilities include:

- Communicate and coordinate effective admission, medical and discharge management plans, diagnostic requests and consultations with patients, families and teams.
- Attend ward rounds, team meetings, family meetings and other hospital and departmental meetings.
- Attend outpatient clinics, community assessments, and residential care facilities as required.
- Participate in afterhours/on-call roster.
- Supervise and teach junior medical staff and medical students.
- Attend and participate in education opportunities (e.g. journal club, grand rounds, mortality and morbidity meetings, Victorian Geriatric Medicine Training Program)

We pride ourselves on offering trainees a supportive and friendly working environment. Trainees are entitled to five hours per week of training including weekly journal club, six-weekly project support meetings, clinical and quality assurance meetings, grand rounds, fortnightly state wide training, alliance training and project time. There is emphasis on developing clinical leadership skills and working within multi-disciplinary teams. There are also opportunities to participate in research, hospital committees and service development.

Note that St Vincent's is also currently working to potentially form a future Regional Training Partnership (RTP) with South West Healthcare (Warrnambool) so that trainees might build a training experience incorporating a year at that regional centre with a year or two at St Vincent's. VGMP will be proactively supporting recruitment into regional positions by allowing appointment to RTP positions before the Centralised match. These appointments would be a choice that trainees make, rather than mandatory. Shorter rotations from St Vincent's to regional centres (eg a 4 month rotation within a 12 month role with us) are not planned. Please refer to the VGMP website for more information about RTPs and let us know if you are interested in hearing more about this.

Please note:

For 2026, applicants will need to apply to both St Vincent's Hospital Melbourne as well as to the Post Graduate Medical Council of Victoria Matching Service (PMCV).

All appointments will be made through a centralised match. Please visit <https://www.vgmt.org/centralised-match.html> for more details. For further enquiries, please contact: Dr Richard Kane, Richard.Kane@svha.org.au or Dr Christine Mandrawa, Christine.Mandrawa@svha.org.au or via the hospital switchboard, (03) 9231 8000.

We strongly encourage you to reach out to us for a preliminary conversation to ensure that we can meet your training needs.

Position Description	Position Description on following page/s	

Position Description

We at SWH are main healthcare provider in Southwest Victorian region catering the needs of approximately 110,000 regional and rural Australians at our 2 campuses (Warrnambool and Camperdown) with over 2500 staff.

Warrnambool is one of the fastest-growing regional cities in Victoria. Major industries include health, education, retail, tourism, dairy, food production, manufacturing, meat processing, professional services, and new-age energy. It provides great work life balance and has all the amenities required.

Our Warrnambool campus (212 bed) provides acute, subacute, rehabilitation and mental health care, and extensive outpatient and community services. Our Camperdown campus (60 beds) provides acute, subacute and aged care services. SWH is a friendly organisation with great team culture and many benefits for employees.

We have excellent record of providing top class training experience including Gen Med ATPs through Western Victoria regional training hub.

South Wests healthcare has been accredited by RACP for 12 months of geriatric training. We are actively seeking to recruit suitable candidates.

With newly formed geriatric and rehabilitation department, we are looking to expand our existing services and add new ones to cater the needs of our clients and aging population in the region. SWH provide unique opportunities to ATs with training and education experience in context of regional and rural settings.

We have 2.6 FTE experienced geriatricians on site, fully qualified RACP supervisors, to take care of the needs of trainees and provide excellent hands-on supervision and mentorship. There will be close supervision as befits the trainee's individual needs. Similarly, undertaking the required assessments to assess trainee's progress through this rotation will be possible from the many clinical opportunities this role will provide. We have active recruitment drive, already had recruited a geriatrician and are now seeking to recruit another one.

We currently provide the following geriatric services.

1. Inpatient 14 bedded GEM unit
2. GEM at home community program (6 beds)
3. Consult and liaison service for Orthogeriatrics and other departments
4. Outpatient falls and balance clinic, CDAMS clinic, Specialist geriatric Outpatient public clinic
5. Geriatric assessment in ED (GAED)
6. Home based and bed-based transition care program
7. Post-acute care program
8. Rapid assessment and community evaluation (RACE) – service will restart soon

The breadth of these services provides advanced trainees with great consultant support and opportunity to experience both GEM and opportunities outside the ward environment to further consolidate learning and experience whilst working toward achieving required competencies.

In collaboration with University of Queensland, our geriatric department is participating in research activities and will be soon starting recruitment into FITTEST trial which is related to older and frail patients.

We are also delighted to announce that Southwest Health and St Vincent's Hospital Melbourne has agreed in principle to form a regional training partnership (RTP) to provide a unique combination of having your training completed with a blend of exposure to rural healthcare along with training at partner Metro site. VGMTP will be proactively supporting recruitment into regional positions by allowing appointment to RTP positions before the Centralised match. Please refer to VGMTP website for more information about RTP.

Trainees will have ample opportunities to involve not only in day-to-day care of geriatric patients for their training, education and learning needs and achieving the competencies required but will also have the opportunity to get involved in research, quality improvement work, service development initiatives and thus develop their leadership skills with protected weekly teaching time.

SWH has following incentives to offer.

1. Accommodation provided
2. Designated location bonus as per doctors in training EBA
3. Novated lease, salary packaging, meal and entertainment card
4. Expertise in community services, dementia and cognitive disorders, acute frailty, inpatient GEM service

5. Flexible training opportunities as per trainee's needs
6. Dedicated training time to help complete trainee's research projects - ample opportunities for quality improvement and service development projects.

Please feel free to contact Dr Rashid Mahmood, Head of the Department Geriatric and Rehabilitation Medicine at rmahmood@swh.net.au or 03 5563 4146.

Position Description

The Royal Melbourne Hospital provides secondary, tertiary and quaternary services to the state of Victoria and some interstate quaternary support also. The hospital provides one of Victoria's two trauma services. The RMH Geriatric Medicine Service provides services across the full spectrum of patient care: Complex Care Outpatient Clinics, Emergency Department assessment and support, inpatient acute and subacute care, a comprehensive consultation and liaison service and community care/support. , The consultative service at the city campus sees approximately 1,200 referrals per year, and new consultative service based in the ED and the VCCC round off our liaison services. At City Campus we host an acute aged care ward, orthogeriatric and traumageriatric services, and contributes to the acute hospital in the home (RMH@Home, acute) service. Subacute services based at Royal Park Campus include two GEM wards (including secure GEM unit with psychogeriatrics specialist care), home-based GEM (RMH@Home subacute), residential TCP, and home-based TCP.

Training in Geriatric Medicine at RMH

At the RMH we endeavour to meet the training needs of our registrars by tailoring the training programme to individual preferences while meeting the clinical needs of the hospital and community. The RMH offers comprehensive and integrated aged care services and hence rotations.

The Royal Melbourne Hospital offers a comprehensive, well-supported training program that aims to achieve a well-rounded training with experience capacity to offer rotations in all the core areas of geriatric medicine expertise over two years. This allows the trainee to pursue a non-core year in their field of choice subsequently, or to join out training programme with the confidence of knowing training can be rounded off

comprehensively. There are also opportunities for dual training such as with general medicine, palliative care, neurology and other subspecialty programs.

Our program offers 4 month rotations at The Royal Melbourne Hospital's two campuses, City and Royal Park, with rotations also posted at the VCCC and in community settings. Registrars are supported by a consultant Geriatrician and junior HMOs in the various training rotations.

Training opportunities encompass the breadth of Geriatric Medicine, with rotations available in:

- Orthogeriatric and Traumageriatric Medicine
- Acute consultation and liaison roles at RMH City Campus, in the ED and at the VCCC
- Subacute care based in 2 GEM wards
- Acute Geriatric Medicine Ward
- Dementia and behaviour management in secure GEM ward,
- Community care including InReach, HITH and GEM at Home
- Transitional Care – both bed- and home-based

All major Geriatric Medicine clinics are offered:

- Geriatric Evaluation and Management (GEM) clinic
- Falls and Balance Clinic
- Cognitive, Dementia and Memory Service (CDAMS) clinic
- Continence Clinic with Urodynamics
- Pain Management Clinic
- Perioperative Medicine Clinic
- Wound Management Clinic
- Movement Disorders Clinic
- Nephrology Complex Care Clinic

Research opportunities are prominent at the RMH, with a strong research unit able to provide world-class supervision and support in research and training. There is excellent support for trainees to successfully meet their project requirements. The substantial research base at RMH provides strong opportunities to meet training project requirements and pursue research goals and higher research degrees.

Supervision and mentoring is readily available and provided in a structured manner by motivated and supportive senior medical staff.

Teaching and learning opportunities are abundant, including:

RMH is a major partner in the Western Training Alliance (together with Western Health, Barwon Health and Ballarat Health) of the Victorian Geriatric Medicine Training Programme (VGMTP) and trainees have protected time to attend the fortnightly state-wide VGMTP training sessions.

There is fortnightly protected training time (alternate to VGMTP sessions) for trainees to work on projects and other learning activities.

Monthly rotating educational activities include Journal Club, Clinical Presentations, Mortality and Morbidity Audits and Clinic Conundrums provide weekly education opportunities.

Grand Round attendance is encouraged, and there is a monthly Research (RACER) meeting, with opportunities to present clinical and research interests.

Rotations are 3 x 4 months each, with the training needs of the registrar taken into account in planning the year, particularly for those in their final year of training. Weekly timetables vary with rotation, but after hours and weekend (1 in 4 to 1 in 6, again depending on the rotation) duties comprise part of the training.

For further information please contact Prof Kwang Lim (kwang.lim@mh.org.au) or Dr Jacqueline Gilbert (jacqueline.gilbert@mh.org.au)

Accredited training sites in Victoria are participating in the state-wide Victorian Geriatric Medicine Training Programme (VGMTP).

** Advanced training positions will be appointed through the PMCV centralised match.

** Applicants need to apply to BOTH Melbourne Health/RMH (via Melbourne Health recruitment) and The Postgraduate Medical Council of Victoria who run the match – <https://allocations/pmcv.com.au> Please see VGMTP website for further details – <https://vgmtp.org/centralised-match.html>

Western Health Geriatric Medicine Department – 2027 Update

Western Health's Geriatric Medicine Department is a large, well-established unit with approximately 30 geriatricians. Trainees gain exposure across acute, subacute, community, and specialty clinic settings. The department is known for its supportive supervision and strong educational culture.

Rotations are offered across Footscray, Sunshine, and Williamstown campuses. The new Footscray Hospital, opened in 2026, features expanded acute services, modern infrastructure, simulation and teaching spaces, and enhanced capacity for consults and education. This development supports Western Health's commitment to excellence and future service expansion.

Western Health's values — Compassion, Accountability, Respect, Excellence — underpin its approach to patient care, education, and team culture.

Advanced Training Positions: In 2027, Western Health will offer:

- **15 full-time equivalent AT positions** (including continuing and first-year roles)
- **1 part-time AT position**
- **1 unaccredited registrar** covering AT leave

Rotations: Rotations are 3 × 4 month blocks and are tailored to meet individual training needs, including final year requirements.

Clinical rotations include:

- Acute Aged Care (AAC)
- Orthogeriatrics
- GEM wards at Sunshine Hospital and Williamstown Hospital
- Rehabilitation
- Dementia management
- Aged Persons Mental Health
- AAC@Home
- Community geriatrics (including weekend pilot)- includes community registrar, Residential In Reach, GEM@home and AAC@home (trial in 2026)
- Specialty clinics: Movement Disorders, Falls & Mobility, Falls and fracture, CDAMS, Continence, Wound, General Geriatrics, perioperative clinic

Rotation preference: Rotations are 3 x 4 months. We tailor these rotations to the trainee, to offer a broad training experience, but also to ensure outstanding training needs, especially in the final year, are met.

Fellow Role: Western Health offers a **Geriatric Medicine Fellow** position, typically structured as two 6-month rotations, one in Dementia management unit and rotation in Residential In Reach. Fellows engage in advanced clinical work, service development, and education. The role includes a mix of clinical and non-clinical duties, with opportunities for leadership and project work.

Weekend Commitments: ATs participate in weekend ward rounds approximately **1 in 3 weekends**, with consultant support. There is no on-call for the registrars.

Education: Trainees attend the fortnightly statewide Victorian Geriatric Medicine Training Program (VGMP) sessions, a local program tailored to needs of Western Alliance trainees and various other local training activities, including those expected in a teaching hospital.

Geriatric meetings:

2nd Tuesday of the month - Mortality and morbidity meeting

3rd Tuesday of the month - Journal club

4th Tuesday of the month - AT research project meeting

Every Friday- Aged care HMO teaching - registrars present on different topics

VGMP WTA: Western Health is a part of the restructured Western Training Alliance. The alliance continues to support collaborative training and workforce planning across the region. The WTA FIGM is based at Western Health.

Application Process: From 2027, PMCV applications will include a **standardised recorded interview**, accessible only to hospitals nominated by applicants. Western Health will use this tool to streamline selection and may reduce the need for individual interviews. All appointments will be made through a centralised match. You will also need to apply to the Western Health site.

Rural training partnership- Barwon Health and Western Health

Brief outline of RTP position

- 1 position - 24 months position at Barwon Health (Regional Health Service) as advanced trainee in geriatric medicine followed by 12 months position at Western Health (Metro Health Service) (employment subject to satisfactory performance in previous training year)
- 1 position - 24 months at Western Health followed by 12 months position at Barwon Health

The position is comprised of three 1-year contracts with contracting and supervision remaining the sole responsibility of the health service employing the trainee during that specific year.

There is a single combined recruitment process for each position, but employment is subject to satisfactory performance in the previous training year.

Note: no accommodation or relocation support provided when changing health services
